What Penn Means to Me:
I see Penn as an opportunity to prepare to be an active citizen and make contributions to society. Having the chance to grow and learn alongside others will prepare me for graduation and what lies beyond.

An Inspiring Interaction I had with a Classmate:
I vividly remember writing a group paper for an urban studies class. As I worked closely with another student, I learned the value of sharing and refining ideas. The product of this experience is the piece of work I have taken the most pride in here at Penn.

My Favorite Film:
Wall-E
